

RESCUE RAMS WITH INTEGRATED REMAINING LENGTH MARKING

NEW!

 **DISTANCE**

WEBERRESCUE
SYSTEMS

www.weber-rescue.com

The new rams

- always see the remaining length!

PATENT
PENDING

All future rescue rams from WEBER RESCUE will have laser-etching on the piston rod to indicate the rams' remaining extension length.

This early warning system enables you to decide right away whether the ram you are currently using is long enough for the job or whether a longer ram must be prepared and used.

A real time saver at work!

There are four etched lines around the circumference which indicate the remaining length. Each line has Centimetre and Inch markings which can be clearly seen from all angles. They show the last available 20 centimetres and so help you to select the right rescue ram.

A real plus for rescue work!

Remaining length marks
laser-etched every 5 cm
(2 in) on the piston rod

Indicates the last 20
centimetres until full
extension

Up to four circumferential rings
depending on type of cylinder

Inch and Centimetre
markings around piston rod

The new rams

- always see the remaining length!

The new piston rods with integrated marking of the remaining length are available now for the following rescue rams manufactured by WEBER RESCUE SYSTEMS:

Type	Closed length (mm)	Piston stroke (mm)	Extended length (mm)	Number of lines	Part no.
RZ 1-850	530	320	850	4	5933803
RZ 2-1290	750	540	1,290	4	5933781
RZ 3-1640	1,100	540	1,640	4	5933765
RZT 2-600	300	300	600	2	5936934
RZT 2-775	395	380	775	3	5931401
RZT 2-1170	540	630	1,170	4	1050149
RZT 2-1500	650	850	1,500	4	1050041
RZT 2-1500 XL	650	852	1,502	4	5932025
RZT 3-1310 XL	480	830	1,310	4	5934133
RZ 1-1810 CROSSRAMMER	990	820	1,810	4*	1077052
RZ 1-910 E-FORCE 2	540	368	908	4	1075272
RZT 2-1360 E-FORCE 2	586	800	1,386	4	1078342
RZT 2-1500 E-FORCE 2	700	800	1,500	4	1081519

*Because of the high extended length of the ram, the lines are marked twice as far apart
0/20/30/40 cm or 4/8/12/16 in

Version 08/2017 Subject to change.
